

NEW **K-COLUMN 400** Modular Clamping System

For Horizontal Machining Centers with 400mm Pallet Capacity

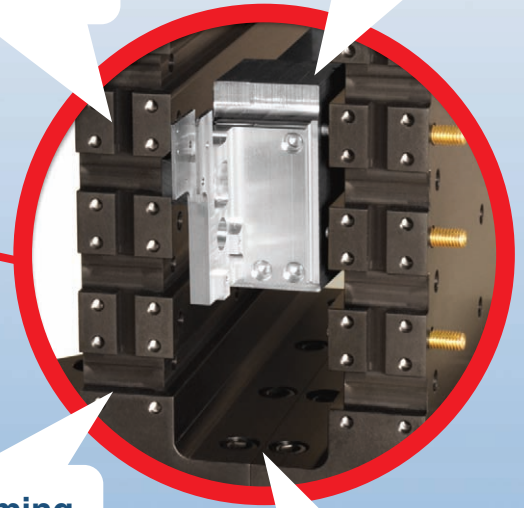

- **Reduced material costs** - machine from stock rather than blanks
- **Reduced part cycle time** - minimal changeover required
- **Reduced setup time** - when compared to cluster vise system

Resulting in reduced overall part cost!

Accommodates
5-sided machining

Raw material becomes
part of workholding

On-center machining and programming

Capacity of K-Column 400: 3.5" wide x 14.5" high

The K-Column is also available for HMCs with pallet capacity of 300mm, 500mm and 600mm.
